PATENT Elastic Fire and Water Proof CEMENT ROOFING.

WHE undersigned is prepared to introduce into use in Tennessee W. E. CHILDS & CO'S PATENT LASTIC FIRE AND WATER-PROOF CEMENT ROOFroad Companies, and the public, to examine uperiority over other Roofing. Architects and Builders Should not fail to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, clastic, and flexible. It contracts and expands with the changes of the atmosphere, and will neither evaporate, crack nor rot; and, as to its durability, there is no question.

It is practically imperishable, and will perfectly resist any ordinary external exposure to fire, as is fully sist any ordinary external exposure to fire, as is fully and abundantly proven, and we will warrant it water and abundantly proven, and we will warrant it water proof. We will engage to put our Roofing on over erdinary good sheathing, old shingles, tar and gravel, tin, zinc, copper, or iron roofs—it making no difference how steep or flat they may be—for seven dollars per one hundred square feet; it being far cheaper than any roof of the old style, and we are sure it will give better satisfaction.

It will also be found to be the best thing ever invented to cover or mend old leaky tin, tar and gravel roofs, or around chimneys, settlies, dormer windows and gotters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. Tin Reofs can be cemented over (and warranted not to leak) at two dollars and fifty cents per hundred square feet, which is cheaper and much better than paint. This Roofing will be found to be the best thing for covering large Roots where they are exposed to fire—such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, Sbamboat Decks, and in fact every kind of Roof where there is an external exposure from fire. As the Roof there is an external exposure from fire. As the Roof is perfect, without a joint in it, it presents no chance for are to communicate, and any light substance will burn out without igniting.

#3 Insurance Offices at Cincinnati, and other places where Childs & Co's Cement has been used, insure Buildings with Roofs covered with this Cement, at the same rates as for those covered with Iron, Copper or Co. #2" The Coment will be furnished to those at a disance with directions for using.

All Orders sent to the undersigned, through the lost Office will be promptly attended to.

HAVING been appointed sole Agent for the sale of Don GERONINO Roca's celebrated CURE FOR CONSCIPRION, the public will now be put in possession of one of the most extraordinary remedies extant for what has heretofore been considered an incurable disease. disease. I have the more readily undertaken the agency, from the fact of its extreme simplicity—being an outward application, the action of which is seemingly miraculous, and its having none of these attributes which make up the numerous compounds now in general use.

With the utmost confidence in the success of this remedy, which has heretofore been used in private practice with great success, as is shown by numerous letters and certificates, is now offered to the public.

A pamphlet, containing directions, letters from distinguished individuals, and documentary evidences from the physicians of the hospital of Havana, Island of Caba, &c., will accompany the remedy.

These speak volumes in its praise, and publicity is only required to render it as popular as it is benefical. Address,

Roca's Remedy for Pulmonary

No. 341 Market street, Pinladelphia Principal Office, 1020 Firzwarez. feb11-2n Persons of Consumptive Habits. READ THIS! To the GAFENBERG COMPANY: For the first time in my life I am induced to certify to the truly wonderful effects of a popular medicine, but in sending you the certificate I feet that I am only discharging a duty that I owe to the Grefenberg Company, and more espacially to suffering hymanity. more especially to suffering humanity.

About the first of June last, I had a negro man taken About the first of June last, I had a negro man taken with a cough attended with restlessness, spitting of blood, and other dangerous symptoms of consumption. I immediately called in a truly skillful and scientific physician, who told me it was a case of consumption. He treated him for several weeks, but he gradually grew worse. I then had another physician of great reputation in lung diseases. He examined him, and also decided it to be a hopeless case of consumption, and said it was useless to stend monov in trying to and said it was useless to spend money in trying to

I had previously promised the Græfenberg Agents here, (Messrs. Wells & Lowell,) that when the doctors gave him up I would try the Græfenberg Consump-tive's Baim. I did so and to my agreeable surprise, the man began to improve after taking only five or six doses. He took only two bottles of the Raim and three bottles of the Græfenberg Sarsapardia Compound which cost me the small sum of nine dollars, and to day I consider him entirely cored. He is worth \$1,200, and he is doing me good service on the plantation. I consider him perfectly sound and well as he is fat, hearty, and strong, without a vestige or sign of disease oft.

JOHN MYELS,
